Experience

Sri Ranga Works Srii Shakthi Tuition Center Coimbatore
Frontend Developer - FREELANCER 03/2023 - 06/2023

Developed UI in the Education App and Billing System, focusing on API's and Forms Handling.

- Spearheaded the development of a comprehensive billing system facilitating the generation of invoices, storage of customer information, and management of payment details
- Leveraged expertise in frontend development to optimize user interactions and ensure a smooth user experience across both the billing system and tuition app.

IICCSS Coimbatore
Frontend Developer 10/2021 - 10/2022

Proficiently designed and coded web pages utilizing HTML, CSS, JavaScript, and React, ensuring optimal functionality and user experience.

- Enforced adherence to web accessibility standards to guarantee inclusivity and accessibility across all web pages.
- Worked closely with backend developers to maintain consistency with API's and reduce the performance issue of KISOK machine by 25%.

IICCSS Coimbatore
Content Writer 03/2018 - 09/2021

Experienced content writer adept at crafting engaging and informative written materials across various platforms

- Proficient in conducting research, structuring content effectively, and adhering to brand voice and style guideline,
- Written thousands of research articles and helped in documentation of web application.

Projects

Tuition APP - Srii Shakthi Tuition Center 03/2023 - 06/2023

Developed a React-based project facilitating access to educational videos, notes, descriptions, and assignments covering various topics.

- Implemented user authentication to grant access based on login credentials tailored to different grade levels, ensuring personalized learning experiences.

Billing System - Sri Ranga Works 03/2023 - 06/2023

Invoice Generator with customized dashboard, invoice and database integration

- Engineered an Invoice Generator featuring a customized dashboard, invoice templates, and seamless database integration.
- Implemented robust report generator and payment generation functionalities seamlessly integrated into the website.

Kiosk Food Order Application - IICCSS 01/2022 - 07/2022

React based project with integration of Redux store and fetching orders based on customer preferences and selection

- Worked closely with backend developers to maintain consistency with API's and reduce the performance issue of KISOK machine by 25%.

Talk-Chat App 01/2024 - 02/2024
<https://talk-chat-nvpa.onrender.com/>

Developed a chat application using the MERN stack.

- Enabling users to register and engage in real-time chatting with other registered users.
- All user information and chat data are securely handled and stored in MongoDB, ensuring scalability and data integrity

Netflix_GPT 02/2023 - 03/2023
<https://netflix-gpt-website.netlify.app/>

React and Redux-based movie searching web application with integration of open API to suggest movies based on keywords.

ShopInOut 09/2023 - 02/2024
<https://shopinout.netlify.app/>

The E-commerce website is created using react framework with redux-toolkit and tailwindcss. The website is still under development.
